

# DIVYASREE M

Software Engineer — Backend & Full Stack Developer

Kannur, Kerala, India — 256divyasree@gmail.com — +91 9778237740 — LinkedIn — GitHub

## Professional Summary

Early-career Software Engineer with strong hands-on experience in Java, Spring Boot, RESTful APIs, and cloud-native application development. Proven ability to design, build, and maintain backend services in Agile environments. Known for fast learning, ownership mindset, and delivering reliable, scalable features across production systems.

## Technical Skills

**Programming Languages:** Java, JavaScript, TypeScript, Python

**Backend & APIs:** Spring Boot, REST APIs, Microservices, Node.js, NestJS (Basics), Golang (Gorilla Mux)

**Frontend:** React, Next.js, HTML5, CSS3

**Databases:** PostgreSQL, MySQL, MongoDB

**Cloud & DevOps:** AWS (EC2, S3 – Basics), Docker (Basics), GitHub Actions (CI/CD)

**Tools & Practices:** Git, Agile/Scrum, CI/CD, API Documentation, Unit Testing

## Experience

### Tarento Group

Oct 2024 – Present

Software Engineer

- Designed and developed backend services using Java and Spring Boot, supporting scalable web and mobile applications.
- Built and consumed RESTful APIs, improving data flow and system reliability across multiple internal platforms.
- Collaborated with cross-functional teams in Agile sprints, contributing to design discussions, code reviews, and releases.
- Improved application stability and performance through debugging, query optimization, and proactive issue resolution.
- Took ownership of features end-to-end, reducing turnaround time by **20%** through efficient implementation.

## Selected Project Experience

### Enterprise Training & Foundation Project

Java — Spring Boot — PostgreSQL

- Developed backend modules using Spring Boot and PostgreSQL as part of enterprise-grade training.
- Worked with large datasets and optimized SQL queries, improving query performance by **30%**.
- Implemented REST APIs and integrated frontend components using React.

### CMS Authoring Tool (Internal Platform)

Golang — REST APIs — JWT

- Built secure backend services with JWT-based authentication and role-based authorization.
- Designed REST APIs supporting content lifecycle management (create, publish, unpublish).
- Improved system reliability and reduced manual errors by **25%**.

### PFH – Healthcare Platform

React — NestJS — AWS

- Developed and maintained backend-integrated features for a production healthcare platform.
- Assisted in cloud deployment and environment configuration using AWS and Docker.
- Ensured high availability and quick bug resolution during production support.

### SCC – Swedish Corporate Championships App

Flutter — REST APIs — Firebase

- Co-developed a production mobile application used by **30+ organizations**.
- Integrated backend APIs, authentication, notifications, and data persistence.
- Acted as frontend lead, mentoring teammates and coordinating feature delivery.

## Awards & Recognition

Spot Award – Q4 FY25 (High Ownership & Delivery)

Spot Award – Q2 FY26 (Technical Excellence)

Awesome Addition to the Team – Q1 FY26

TRON Agentic AI Hackathon – 1st Runner Up
